

Information Literacy

Access to information is easy to acquire with today's technology. The difficulty modern researchers often encounter is information overload. General web searches often result in too many, and often irrelevant hits. The online library tutorials below will help you to be more effective in locating reliable, scholarly resources and in evaluating your results for relevance.

The logo for PILOT, featuring the word "PILOT" in a bold, black, sans-serif font on a light beige rectangular background.
