

Using the Journal Finder

1. Go to the library home page (<http://www.kcu.edu/library>)
2. Click on the word “Research” in the column on the left
3. Click on “Journal Search” in the column on the left
4. Type in a journal title (Example: Journal of Advanced Nursing)
5. Click on the plus sign beside “Full Text Access” to find out which databases have this journal available in full text.

6. Click on a database located under the title
7. On the Publications screen click on “Search within this publication”. This allows you to search all of the issues available for information on a topic.

8. On the Publications screen you can also click on a specific year and search within a particular issue of the publication.
